

# Finance

The **finance major** prepares students to work in any of the major areas of the field of finance. These areas include commercial banking, financial planning, fixed income analyst, equity analyst, corporate financial analyst, investment banking, etc. Many of these areas are expected to grow in demand for the foreseeable future. The coursework required for this major gives students a well-rounded background in business and finance. Students will learn core financial skills and how to apply them. They will also learn to think analytically and solve problems in an uncertain environment.

Upon graduating, Finance majors should be able to: compute the cost of capital for a company and make capital budgeting decisions; make financial forecasts and analyze financial statements; and use discounted cash flow analysis and valuation metrics to value companies and their stocks.

See the Graduate section (<http://catalog.mtmercy.edu/graduateprograms>) of this *Catalog* for more information on Graduate programs offered at Mount Mercy.
