

Psychology

The psychology major presents a scientific approach to the study of individual behavior and experience. The goal of the major is to provide an empirical and theoretical understanding of the basic knowledge, concepts, and methods of psychology. Though such understanding may lead to greater personal insight, the study of psychology is focused primarily on a body of empirical knowledge and theoretical formulations that aim to predict and explain behavior. The approach emphasizes both critical evaluation of evidence and awareness of the implications of psychological knowledge and theory for the lives of persons. Most psychology courses emphasize self-awareness and critical thinking.

A major in psychology is intended to prepare students for advanced study or entry into pre-professional employment. A psychology major also may function as the core of an educational program in preparation for continuing informal learning. Courses in basic skills for human service workers and internship in psychology are included to facilitate application of basic knowledge in real-life settings.

A minor in psychology may be related to a wide variety of career preparations or may serve as part of a general liberal arts degree program.

Psychology majors use critical thinking to solve human behavioral problems, they develop insight into their values and career goals, they develop good oral and written communication skills, and they develop skills in understanding and using statistics and research methods.

Additional courses from the Perspectives or Focused courses may also count toward the Topics courses. Students must complete a minimum of 12 semester hours in the major at Mount Mercy. A Bachelor of Science (BS) degree will be awarded. Students planning to pursue teacher education should follow the program guidelines within the Education section (<http://catalog.mtmercy.edu/archives/2014-15/curriculum/education>) of this catalog and contact an advisor in the Education major for assistance.

Academic Requirements

A grade of 'C' or above (C- does not count) must be earned in each course counted toward the major or minor (including PS 101 Introductory Psychology.)

Career Opportunities

Social service agencies, government agencies and businesses are the prime employers of psychology majors.

See the Graduate section (<http://catalog.mtmercy.edu/archives/2014-15/graduateprograms>) of this *Catalog* for more information on Graduate programs offered at Mount Mercy.
