

# Programs

---

Mount Mercy offers high-quality, high-demand graduate programs for working adults who need to balance graduate school with full-time employment and family. While the Master of Arts in Criminal Justice will be offered exclusively online beginning in the Fall of 2016, other programs are offered in the face-to-face accelerated format. Courses are available in convenient 5-week blocks on a year-round calendar, allowing students to earn their degrees quickly. Classes primarily meet at night but with some weekend offerings. Click on any of the programs to the left to see a listing of course work within each of our graduate programs.
